Prescribed hydroponic equipment

The requirement to be licensed under the Hydroponics Industry Control Act will relate to carrying on the business of selling *prescribed equipment* by retail.

Under the Act *hydroponic equipment* means - equipment that is designed to be used, or is of a kind that is commonly used, for a purpose related to the cultivation of plants using hydroponic methods.

It is envisaged the following hydroponics equipment will be *prescribed equipment*:

- (a) metal halide lights, high pressure sodium lights and mercury vapour lights of 400 watts or greater;
- (b) ballast boxes designed or intended for use in association with a light of a kind referred to in (a);
- (c) devices (including control gear, lamp mounts and reflectors) designed to amplify light or heat and capable of being used in association with a light of a kind referred to in (a);
- (d) carbon filters designed to filter air within a room, or from 1 area of a building to another or to outside;
- (e) units designed to contain plants and rotate around a light source so that the plants grow hydroponically while being exposed to a consistent degree of light or heat or both.
